

Recruitment Consultant (All levels)

Description

Systematic are working with a recruitment company based in Manchester City Centre who are looking to grow their Engineering Data Centres division. They have been established for over 5 years and have a fantastic reputation in the market. They are recruiting at all levels, from trainee right up to Managing consultant. They are a believer in people and invest in the best. They pay commission up to 30% and have additional bonus' and targets.

Ideal Candidate

Depending on level you are entering the business at depends on what experience you should have. For trainees, they are looking for driven and motivated individuals who are keen to learn and progress within the business. At consultant level and above they would be looking for you to demonstrate knowledge of the market, good recruitment processes and proof of billings. They offer excellent in house training which I have seen first hand and is second to none. They are a keen believer in constantly refreshing and developing.

Job Benefits

They offer an attractive salary of up to £40K with a commission structure that will attract the best contract consultants in town. Their commission structure pays up to 30% and they will pay an additional 10% on all of your billings over your annual target. There is a company car target which is run quarterly and frequent holiday targets which are often met by everyone. Smart Casual dress with early finish on a Friday, and flexible office hours where needed.
